

**PE1974/G: Adopt the A890 as a trunk road and
PE1980/E: Adopt the A832 between Achnasheen and
Gorstan as a trunk road**

Petitioner written submission, 29 April 2024

Thinking of how the Committee could be better informed, may I suggest that the best way for them to inform themselves of the situation is to come and have a look at the Stromeferry bypass for themselves. This is the most problematic part of the Auchtertyre to Gorstan route.

I feel that if the Committee were to come and experience the Strome to Ardnarff section of the route it would impress upon them the possible serious outcome that a large rockfall could create. Other stretches of the Auchtertyre to Gorstan route are far from ideal for a major tourist attraction (the North Coast 500) but the bypass is a priority for local people.
