Motions for Debate

***[S6M-00144](#) Humza Yousaf: Health Recovery**—That the Parliament welcomes the Scottish Government commitment to produce an NHS Recovery plan within 100 days, reflecting that the necessary actions of the NHS to deal with the COVID-19 pandemic have impacted on waiting times for care and treatment; recognises that this impact will mean that many people are waiting longer for treatment and that this will be a source of worry for them and their families; notes that the aim of the recovery plan will be to increase inpatient, day case and outpatient activity by 10%, and that urgent care such as cancer will continue to be prioritised and action taken to reduce the longest waits; believes that the recovery plan should address both mental and physical health as all aspects of wellbeing have been affected by the pandemic; further believes that a women's health plan should also be brought forward within 100 days in order to better shape the services that are needed by women of all ages but that have too often fallen short in the past; commends the health and care staff for the remarkable efforts that they have made to provide the best care and treatment possible during the pandemic, and recognises that fundamental to the recovery of the NHS is a recognition of their care and support needs so that they can best meet the needs of patients, and supports the establishment of a National Care Service to ensure that care services are founded on fairness, equality and human rights, and are placed on the same level of esteem as the National Health Service.

***[S6M-00138](#) Monica Lennon: Historical Forced Adoption**—That the Parliament condemns the historical practice of forced adoption, where up to 250,000 mothers were unfairly coerced, resulting in their new-born babies being taken away from unmarried mothers; notes that, in the UK, it is estimated 60,000 of the women resided in Scotland; acknowledges that the babies were taken away against their mother's will and placed for adoption; understands that lawyers examining the birth mothers' cases have focused on the period between 1945 and 1975, before a change in the UK adoption law, when around 500,000 babies were adopted, mostly from mothers who were under 24, denying them the right to care for their children; notes the view that the UK and Scottish governments should follow the lead of the Australian Government in 2013, by taking

responsibility for the policies and practices that forced the separation of mothers from their babies, and further notes calls for the Scottish Government to initiate an inquiry regarding the practice in Scotland, acknowledge to the public through a formal apology that there had been wrongdoings and ensure that support is available to women and families in Central Scotland and across the country who have had to live with the consequences of the actions of government in the past.

***[S6M-00137](#) Sue Webber: Forth Ports Unveils Ambitious Investment Plans for the Port of Leith**—That the Parliament welcomes the news that Forth Ports has unveiled ambitious proposals for the creation of Scotland's largest renewable energy hub at the Port of Leith; understands that this £40 million private investment will support Scotland's economic recovery and energy transition plans; acknowledges that it will support the regeneration of the Port and create numerous jobs in the area, reinforcing what it sees as the position of the Central Belt as a leading area of engineering and manufacturing skills and capabilities, and wishes all involved with this project success.

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
