Motions

Motions and amendments are usually printed the day after lodging. When an amendment is lodged, then the original motion will be republished alongside it.

Motions and amendments can be published with symbols:

- * before the number indicates publication for the first time
- *...* around a section of text indicates changes to previously published material
- R indicates a member has declared a registered interest

The Parliamentary Bureau periodically deletes motions or amendments that are over six weeks old and not scheduled for debate.

Questions regarding this section should be directed to the Chamber Desk.

Members' Business motions that have achieved cross party support

***[S6M-01042](#) Michael Marra: Action on Brain Injury in Football**—That the Parliament understands that an increasing number of ex-footballers in the North East Scotland region and across the country are making public a diagnosis regarding brain injury, and that a growing research base highlights the increased risk of such injury that professional players face; notes the view that the sport's governing bodies must take swift action to support former players and protect those currently involved in the game; further notes calls for such conditions among footballers to be considered as an industrial injury; recognises the campaigning by PFA Scotland, the GMB and other organisations regarding this, and notes calls for a working group to be established to consider these issues, which should also focus on the grassroots game.

Members' Business motions that have not achieved cross party support

***[S6M-01046](#) Mark Griffin: Improving Energy Efficiency in Scotland's Private-rented Sector**—That the Parliament notes the view that energy efficiency in the private rented sector, including in the Central Scotland region, must improve; believes that by taking a fabric-first approach, tenants' homes could be warmer and that emissions from buildings might reduce, helping Scotland reach what it sees as the country's ambitious net zero targets; notes the recently-published research by Citizens Advice Scotland, *Identifying the opportunities and barriers to Energy Efficiency in the Private Rented Housing Sector*; understands that this research involved landlords, letting agents and estate managers; believes that they expressed a keenness to play their part in making their buildings more energy efficient and that a majority of those interviewed were supportive of new regulatory requirements for minimum energy-efficiency standards; further believes that the sector faces unique challenges to improvements and that there is a perceived lack of financial and technical support available to inform decision-making, and values the report's recommendations regarding how housing in the sector can be improved. **R**

***[S6M-01067](#) Kenneth Gibson: Climate Change-induced Famine in Southern Madagascar—** That the Parliament notes with concern reports that, according to the UN World Food Programme (WFP), 1.14 million people in southern Madagascar are currently experiencing the world's first climate change-induced famine, with 30,000 people in the highest internationally recognised level of food insecurity, level five, and over 500,000 children under the age of five expected to be acutely malnourished by April 2022, if proper nourishment is not supplied; understands that, after having sold all their items of any value for food, and being unable to farm due to the drought, south Madagascar residents, who normally heavily rely on farming, are now condemned to foraging for locusts, raw red cactus fruits, and wild leaves, being entirely reliant upon WFP assistance for anything else; expresses concern at reports that, while the COVID-19 pandemic has been a contributing factor, the most recent report by the Intergovernmental Panel on Climate Change observes that the famine has been caused by changes in the climate of Madagascar, which have led to four years without rain in the affected area and the worst drought in four decades, despite these communities making a virtually negligible contribution to climate change; acknowledges that, while the government of Madagascar has laid out plans regarding water management and crop production for the future, the WFP requires over £55 million to help address this immediate humanitarian crisis in a sustainable manner; encourages individuals to donate via the WFP website, but believes that all polluting countries, including the UK, must share responsibility for the part they play in climate change, particularly now that, it believes, the first climate change-induced famine is a fact, and that aid must be provided to the people suffering from it, and urges the UK Government to reconsider its decision to cut its foreign aid budget, to which taxpayers in Scotland also contribute, from 0.7% to 0.5% of gross national income, at the same time as the economy has declined, and offer support to help alleviate the unfolding famine in southern Madagascar.

Written Questions

Questions in which a member has indicated a declarable interest are marked with an "R".

Written questions lodged on 06 September 2021

[S6W-02653 Evelyn Tweed](#): To ask the Scottish Government, in light of the reported high numbers of people visiting Loch Lomond & Trossachs National Park, what (a) action it is taking to support local communities and public authorities to manage any increased visitor activity, while maintaining access to services for residents, and (b) funding is available for investment in infrastructure, including in visitor facilities, public transport and active travel, to support the area to manage the experiences of both visitors and residents.

[S6W-02661 Foysoyl Choudhury](#): To ask the Scottish Government, further to the answer to question S6W-01641 by Graeme Dey on 16 August 2021, whether it can confirm that there is no opposition from Transport Scotland to the application from the Ferymuir Gait site developer to secure planning permission for the access arrangements to the Ferymuir Gait housing development to be amended, to allow for unrestricted access.

[S6W-02664 Alexander Burnett](#): To ask the Scottish Government what plans it has to support red squirrel conservation, following the conclusion of the five-year Developing Community Action phase of the Saving Scotland's Red Squirrels project. **R**

[S6W-02693 Liam Kerr](#): To ask the Scottish Government what obligations relating to the installation of replacement boiler systems will be placed on users of gas-fired boiler systems from 2025.

[S6W-02695 Liam Kerr](#): To ask the Scottish Government what it expects the cost to be of the transition to non-gas boiler systems per household; by what method this has been calculated; on whom will responsibility fall to meet these costs, and what financial support will be provided to households to help them meet any of the costs.

[S6W-02766 Evelyn Tweed](#): To ask the Scottish Government what action it is taking, including what resources are available, to raise awareness of the (a) Scottish Outdoor Access Code and (b) dangers of visiting some rural locations, in light of recent water deaths.

New Subordinate Legislation

New Subordinate Legislation

Affirmative Instruments

The following instrument was laid before the Parliament on 6 September 2021 and is subject to the affirmative procedure—

Redress for Survivors (Historical Child Abuse in Care) (Scotland) Act 2021 (Form and Content of Waiver etc.) Regulations 2021

Laid under section 107(2) of the Redress for Survivors (Historical Child Abuse in Care) (Scotland) Act 2021

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.

Progress of Legislation Adhartas Reachdais				

Following a reference under section 33 of the Scotland Act 1998 by the Attorney General and the Advocate General for Scotland, the Supreme Court has ruled that some provisions of the Bill are outwith the legislative competence of the Scottish Parliament. The Bill cannot be submitted for Royal Assent in its unamended form.

United Nations Convention on the Rights of the Child (Incorporation) (Scotland) Bill (G)

Passed, 16 March 2021

The Bill has been referred to the Supreme Court under section 33 of the Scotland Act 1998 by the Attorney General and the Advocate General for Scotland.
