[S6M-01415](#) Douglas Ross: Halting the COVID-19 Vaccine Certification Scheme—That the Parliament calls on the Scottish Government not to proceed with its plans to introduce a COVID-19 vaccine certification scheme.

The Presiding Officer has selected the following amendments

[S6M-01415.2](#) John Swinney: Halting the COVID-19 Vaccine Certification Scheme—As an amendment to motion S6M-01415 in the name of Douglas Ross (Halting the COVID-19 Vaccine Certification Scheme), leave out from "calls" to end and insert "commends the extraordinary effort of vaccination teams throughout Scotland, which means that, as of 24 September 2021, 86% of eligible over-18-year-olds were double-vaccinated against COVID-19; recognises that case numbers remain too high and that action is needed from all sectors to ensure that baseline COVID-19 measures are rigorously implemented; acknowledges that a number of other countries have introduced COVID-19 certification schemes, that the Welsh Government has plans to introduce a vaccine certification scheme in Wales, and that it is part of winter contingency planning by the UK Government for England; believes that, in line with the Scottish Government's strategic intent, a COVID-19 vaccine certification scheme can provide a targeted means to maximise Scotland's ability to keep certain higher-risk settings open, while reducing the impact of transmission and encouraging the remaining sections of the population, including those who may be vaccine hesitant, to get vaccinated; recognises that the Parliament has already endorsed a certification scheme; supports the implementation of a COVID-19 vaccine certification scheme; agrees that the scheme will apply to late night venues between the hours of 00:00 and 05:00 with music, alcohol and dancing, indoor unseated live events with 500 or more attendees, outdoor unseated live events with 4,000 or more attendees, and all events with 10,000 or more attendees; notes that measures are being taken to ensure digital inclusivity and to ensure that disabled people are not disproportionately impacted, and agrees that this scheme will be kept under review."

[S6M-01415.1](#) Daniel Johnson: Halting the COVID-19 Vaccine Certification Scheme—As an amendment to motion S6M-01415 in the name of Douglas Ross (Halting the COVID-19 Vaccine Certification Scheme), insert at end “; recognises that the impact of certification on behaviours that reduce transmission is uncertain according to SAGE; notes that the scheme does not include proof of a negative test as an alternative to certification; raises concern about the inadequate consultation, published detail or lack of support for the sectors impacted by the introduction of vaccine certification; regrets that contact tracing in Scotland has repeatedly missed the World Health Organization's standard of tracing 80% of close contacts within 72 hours, and calls on the Scottish Government to focus on urgently resourcing Test and Protect and increasing vaccine uptake by improving access to vaccination clinics.”

followed by Scottish Conservative and Unionist Party Debate: Legal Right to Recovery

S6M-01416 Sandesh Gulhane: Legal Right to Recovery—That the Parliament believes that record drug deaths in Scotland are a humanitarian crisis; further believes that progress in the rehabilitation and treatment of addiction in Scotland has been too slow; calls for a legal right to recovery to tackle Scotland's ongoing drug deaths crisis with the urgency that it deserves; notes that the possession of class A drugs is a serious offence and should not be dealt with through warnings that seek "not criminalising" offenders; believes that the content of the Lord Advocate's recent Ministerial Statement deserves proper consultation, and calls for the Scottish Government to set aside time to debate this matter in full.

The Presiding Officer has selected the following amendments

S6M-01416.3 Angela Constance: Legal Right to Recovery—As an amendment to motion S6M-01416 in the name of Sandesh Gulhane (Legal Right to Recovery), leave out from "; further" to end and insert "and public health emergency; offers its condolences to the thousands of families across Scotland who are grieving the loss of loved ones to drugs; believes that the Scottish Parliament and the UK Parliament should consider any proposal that is based in evidence and that can play a part in saving lives, including the right to recovery and harm reduction approaches; recognises that addressing drugs misuse must primarily be taken forward as a public health matter; supports that the £250 million investment to help address drugs deaths will support residential rehabilitation, community rehabilitation, Medication-Assisted Treatment standards, and a range of approaches to reduce harm; understands that prosecution policy is decided independently by the Lord Advocate and is not set by the Scottish Government or the Parliament; notes that experiences from other nations such as Portugal show that diversion from prosecution for drug possession towards support or treatment services can be an opportunity to ensure better outcomes for some of the most vulnerable people in society."

S6M-01416.2 Claire Baker: Legal Right to Recovery—As an amendment to motion S6M-01416 in the name of Sandesh Gulhane (Legal Right to Recovery), leave out from "calls for a legal right" to end and insert "welcomes the Lord Advocate's recent Ministerial Statement regarding diversion from prosecution and the expansion of the use of Recorded Police Warnings; recognises the urgent need to ensure that individuals can access treatment and recovery services when they need them and will consider all proposals that reduce harm and support rights to access treatment; recommends that the Scottish Government urgently considers all options within the existing legal framework to support the delivery of safe consumption facilities, alongside expanded community resources that help people avoid substance misuse and improve access to residential rehabilitation and treatment, and seeks assurances that Police Scotland is trained and supported to respect the nationwide roll-out of the provision of naloxone."

Motions for Debate

***[S6M-01444](#) Angus Robertson: Impact of Brexit on Scotland's Supply Chain and Labour Market**—That the Parliament believes that the UK Government's chaotic hard Brexit policy is damaging recovery from the COVID-19 pandemic; deplores the decision of the UK Government to ignore detailed evidence from the Scottish Government and others about the harm that would be caused by removing Scotland and the UK from the European single market and customs union in the middle of the public health crisis; calls on the UK Government to immediately introduce a Temporary Worker Route, extended to 24 months, to alleviate some of the damage that it has caused, as part of a replacement immigration system that will both reduce the harm of Brexit and treat people with dignity and respect; recognises that the UK Government's failure to introduce such a scheme has led directly to serious levels of vacancies in hospitality, distribution, social care, construction, food production, agriculture and tourism, among other sectors; further recognises that this will only mitigate in part the negative consequence for Scotland of ending the benefits of EU membership, including freedom of movement; believes that the UK Government's actions and lack of action have led directly to serious petrol and diesel shortages on forecourts and to food supply shortages; further believes that these failures are felt across society and most acutely by the poorest, and agrees that, in a rich country like Scotland, the chaos of recent weeks and the deliberate targeting of the poorest in society make clear the heavy cost imposed on people in Scotland by a UK Government that they did not elect.

numbers remain too high and that action is needed from all sectors to ensure that baseline COVID-19 measures are rigorously implemented; acknowledges that a number of other countries have introduced COVID-19 certification schemes, that the Welsh Government has plans to introduce a vaccine certification scheme in Wales, and that it is part of winter contingency planning by the UK Government for England; believes that, in line with the Scottish Government's strategic intent, a COVID-19 vaccine certification scheme can provide a targeted means to maximise Scotland's ability to keep certain higher-risk settings open, while reducing the impact of transmission and encouraging the remaining sections of the population, including those who may be vaccine hesitant, to get vaccinated; recognises that the Parliament has already endorsed a certification scheme; supports the implementation of a COVID-19 vaccine certification scheme; agrees that the scheme will apply to late night venues between the hours of 00:00 and 05:00 with music, alcohol and dancing, indoor unseated live events with 500 or more attendees, outdoor unseated live events with 4,000 or more attendees, and all events with 10,000 or more attendees; notes that measures are being taken to ensure digital inclusivity and to ensure that disabled people are not disproportionately impacted, and agrees that this scheme will be kept under review."

[*S6M-01415.1](#) Daniel Johnson: Halting the COVID-19 Vaccine Certification Scheme—As an amendment to motion S6M-01415 in the name of Douglas Ross (Halting the COVID-19 Vaccine Certification Scheme), insert at end “; recognises that the impact of certification on behaviours that reduce transmission is uncertain according to SAGE; notes that the scheme does not include proof of a negative test as an alternative to certification; raises concern about the inadequate consultation, published detail or lack of support for the sectors impacted by the introduction of vaccine certification; regrets that contact tracing in Scotland has repeatedly missed the World Health Organization's standard of tracing 80% of close contacts within 72 hours, and calls on the Scottish Government to focus on urgently resourcing Test and Protect and increasing vaccine uptake by improving access to vaccination clinics.”

[*S6M-01324](#) Alexander Stewart: Age Scotland's Big Survey of Older People 2021—That the Parliament welcomes the results of Age Scotland's Big Survey of Older People 2021; understands that, early in the year, the charity, along with its research partners, Scotinform Ltd, surveyed 3,562 people over 50 from across the country, including the Mid Scotland and Fife region, to capture their experiences and better understand how COVID-19 has impacted their lives; notes that it also enquired about many other areas of life, including health and wellbeing, housing, ageism, the representation of older people, their financial challenges and looking to the future; believes that this new and extensive research ultimately provides a real-world sample of people over 50 and a snapshot of what it is like to be an older person living in Scotland today; acknowledges that the findings have provided a wealth of information and insight into older people's lives, not least with the conclusion that COVID-19 has had a huge impact on levels of loneliness; is concerned at the results suggesting that 53% of respondents stated that the pandemic had made them feel lonelier, with 10% saying they feel lonely all or most of the time; understands that this amounts to nearly a quarter of a million over-50s; is troubled to learn that a third of respondents said that they felt that their mental health had deteriorated over the last few years and that 87% said that either they or someone they know has been the target of a scam, and notes the calls for plans to be put in place urgently to ensure that what it sees as these myriad trends may be reversed.

hospitals is fast approaching the COVID-19 bed capacity, as admissions hit their highest point in six months; further notes the reports that health chiefs are worried about an autumn COVID-19 surge, with 83 of the 93 designated beds for COVID-19 currently occupied; understands that this situation must improve before winter, with a surge of COVID-19 cases and other seasonal illnesses expected to surge; recognises that the longer this surge continues, the longer that elective surgeries will continue to be axed; thanks all NHS Ayrshire and Arran staff for continuing to work extremely hard, and wishes all patients with COVID-19 a fast recovery.

***[S6M-01341](#) Sharon Dowey: Duke and Duchess of Rothesay Officially Open an Ayrshire Refuge Accommodation**—That the Parliament congratulates South Ayrshire Women's Aid as its renovated refuge accommodation is officially opened by the Duke and Duchess of Rothesay; notes that this accommodation provides refuge to women and children who are fleeing from domestic abuse; recognises that the opening of this space will provide eight flats to those who are in desperate need of safety; understands that their Royal Highnesses found the accommodation to provide privacy, alongside the offer of support and advice; supports the organisation as it continues to provide a vital service to women and children who are now placed in refuges and safe houses at unadvertised locations; understands that this accommodation will provide a lifeline, and wishes these women and children all the best as they begin receiving this support.

gambling advertising and, in particular, the effects on children and those who have suffered from gambling disorders, including an increasing intent to gamble; expresses its deep sadness at what it understands to be an estimated 250 to 650 gambling-related suicides in the UK every year, as well as an estimated five million people who are affected by gambling-related harm, and 55,000 children who are already addicted to gambling in the UK; notes with concern reports that gambling companies have been very successful in generating awareness of gambling among 11 to 24-year-olds, with one study finding that participants in this age group knew more than seven of the 10 gambling brands listed, and that 43% of those aged 18 to 24 and 22% of those aged 11 to 17, had engaged with gambling advertising in the last month, such as owning merchandise or discussing a gambling company; acknowledges the reported findings of a review of 27 studies from across the world that found that higher exposure to gambling advertising was related to more favourable attitudes towards gambling, with greater intentions to gamble and to gamble more frequently, and to spend more money on gambling; understands that gambling advertising has a cumulative effect over time and has a role in encouraging vulnerable people to gamble when they had not intended to, or to gamble more; considers that ending gambling advertising could help prevent harm by removing a risk factor, and supports the call from the Coalition Against Gambling Ads to end all gambling advertising, promotion and sponsorship in order to safeguard children and vulnerable adults from what it sees as the predatory behaviour of many gambling advertisements.

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.
