[S6M-01769](#) Michael Matheson: Global Ambitions for COP26—That the Parliament welcomes the world to Glasgow for the COP26 summit and thanks all those who have contributed to enabling the summit to take place; considers this to be humanity's last opportunity to limit global warming and deliver on the ambitions set at the Paris Climate summit in 2015 and calls on world leaders gathering in Glasgow to make the necessary changes in their own countries to keep the target of 1.5 degrees alive and ensure it is achieved, and also deliver on the funding commitments made in Paris to support countries in the Global South in tackling climate change and its impacts; further calls on world leaders to take immediate and rapid action on emissions reduction and investment in low-emission and zero-carbon technology on a global scale, and to recognise the loss and damage already occurring as a result of climate change, recognising that those suffering most from these changes are those least responsible for it, and to support those countries already living with such loss; notes the commitments recently set out through the Programme for Government, the Cooperation Agreement between the Scottish Government and the Scottish Green Party Parliamentary Group, and other documents that build upon the updated Climate Change Plan and increase the steps being taken in Scotland to address the climate crisis; looks forward to the publication, starting from next year, of sectoral just transition plans, and welcomes the undertaking, in support of this, of further analysis of Scotland's North Sea oil and gas production to assess the compatibility of current and future field development with the Paris Agreement, and to Scotland's economy, security and wellbeing.

The Presiding Officer has selected the following amendments

[S6M-01769.1](#) Monica Lennon: Global Ambitions for COP26—As an amendment to motion S6M-01769 in the name of Michael Matheson (Global Ambitions for COP26), insert at end “; notes that the Scottish Government has not met the annual target for emissions in 2017, 2018 and 2019; agrees that it is important for Scotland to provide leadership through action and delivery; understands that having better, regular, interconnected and affordable public transport run in the

interest of passengers will be essential to achieving the modal shift from cars that will be necessary to meet Scotland's climate ambitions, and calls on the Scottish Government to use all the powers available to it to realise Scotland's full potential in the renewable energy sector, create local green jobs in communities across Scotland, implement a bold industrial strategy to invest in and grow domestic supply chains, and take all necessary steps to secure a just transition to net zero in Scotland, ensuring that no individual, family or community is left behind."

***[S6M-01769.4](#) Liam Kerr: Global Ambitions for COP26**—As an amendment to motion S6M-01769 in the name of Michael Matheson (Global Ambitions for COP26), leave out from “the commitments” to end and insert “that the Scottish Government has missed its legal emissions target three times and that, according to the Climate Emergency Response Group, over two thirds of key climate policies are not on track; considers that the Scottish Government and Glasgow City Council have failed to properly prepare Glasgow and Scotland’s national transport infrastructure for hosting this global event, and calls upon the Scottish Government to urgently step up its support for making homes more energy efficient, bring forward a Circular Economy Bill, accelerate the roll-out of Scotland’s electric vehicle charging network, and invest as a full partner in the North Sea Transition Deal.”

***[S6M-01769.3](#) Liam McArthur: Global Ambitions for COP26**—As an amendment to motion S6M-01769 in the name of Michael Matheson (Global Ambitions for COP26), insert at end “; notes the Scottish Government’s commitment to develop an aviation strategy, and believes that, as part of this work, the Scottish Government should withdraw from its written agreement with Heathrow Airport to support the building of a third runway.”

***[S6M-01769.1](#) Monica Lennon: Global Ambitions for COP26**—As an amendment to motion S6M-01769 in the name of Michael Matheson (Global Ambitions for COP26), insert at end “; notes that the Scottish Government has not met the annual target for emissions in 2017, 2018 and 2019; agrees that it is important for Scotland to provide leadership through action and delivery; understands that having better, regular, interconnected and affordable public transport run in the interest of passengers will be essential to achieving the modal shift from cars that will be necessary to meet Scotland’s climate ambitions, and calls on the Scottish Government to use all the powers available to it to realise Scotland’s full potential in the renewable energy sector, create local green jobs in communities across Scotland, implement a bold industrial strategy to invest in and grow domestic supply chains, and take all necessary steps to secure a just transition to net zero in Scotland, ensuring that no individual, family or community is left behind.”

***[S6M-01767](#) Gillian Mackay: Abortion Clinic Buffer Zones**—That the Parliament notes the campaign by Back Off Scotland for the Scottish Government to introduce 150m buffer zones, or protest-free areas, around clinics that provide abortion services across Scotland; understands that buffer zones around abortion clinics already exist in other countries, such as Australia and Canada, as well as some local authorities in England; believes that safe and legal access to abortion services is a vital human right; further believes that everyone who chooses to have an abortion, including those in the Central Scotland region, should be able to do so without fear of harassment, intimidation or abuse; understands that there have been concerning reports of patients across Scotland, experiencing intimidation and harassment from protesters when accessing sexual and reproductive health services, and notes the view that buffer zones would help to ensure patients can continue to access these services safely and without fear of harassment.

North - The Lighthouse Trail, which ran from 9 August to 17 October 2021 across the north east, Orkney and Shetland; understands that the cultural trail, which consisted of 50 lighthouse sculptures designed by some of the UK's most talented artists, was conceived to help visitors and local communities rediscover and engage with the region during Visit Scotland's Year of Scotland's Coasts and Waters; highlights what it considers to be the high level of engagement with the project, with more than 5,000 people downloading the Light The North app to catalogue the lighthouses they visited, track their progress, and vote for their favourite sculptures; congratulates the artist, Kym Parker, who designed the top-ranked sculpture, *7th Wonder*, which she based on the Bell Rock Lighthouse, which is described as one of the Seven Wonders of the Industrial World; notes that the lighthouse sculptures will be auctioned to help raise funds for Clan Cancer Support, which provides emotional and practical support to people affected by cancer and who live in the region; encourages locals and visitors alike to attend the Light The North Farewell Weekend, at Gordon Barracks, between 29 and 31 October, which will be the final opportunity to see all 50 large lighthouses and 90 little lighthouses that were painted by school pupils, community groups and artists, before they are auctioned on 1 November, and acknowledges all those involved in the project's implementation, as well as its sponsors and supporters, for a hugely successful 10-week event in aid of an excellent cause.

***[S6M-01571](#) Marie McNair: West Dunbartonshire's Pioneering, Award-winning Heating Network** —That the Parliament commends the use of innovative energy technology in West Dunbartonshire; understands that the new district heating system at Queen's Quay, in Clydebank, has won the prestigious European Heat Pump Award for Heat Pump City of the Year; further understands that the £20 million technology uses the River Clyde to generate heat and is officially known as the West Dunbartonshire Energy Centre; believes that this project, which is located on the former and historical John Brown shipyards site, is a beacon of possibilities for the regeneration of former industrial sites and green energy alternatives, and acknowledges the project as a leading example in helping to achieve net zero targets and tackle fuel poverty in Scotland's communities.

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
