followed by Scottish Labour Party Debate: Protecting Patient Safety at the Queen Elizabeth University Hospital

[S6M-02327](#) Anas Sarwar: Protecting Patient Safety at the Queen Elizabeth University Hospital—That the Parliament has no confidence in the leadership of NHS Greater Glasgow and Clyde, and believes that the Scottish Government must escalate the NHS board to Stage 5 of the performance escalation framework without delay.

The Presiding Officer has selected the following amendments

[S6M-02327.2](#) Humza Yousaf: Protecting Patient Safety at the Queen Elizabeth University Hospital—As an amendment to motion S6M-02327 in the name of Anas Sarwar (Protecting Patient Safety at the Queen Elizabeth University Hospital), leave out from "has no confidence" to end and insert "recognises the work of frontline NHS staff at the Queen Elizabeth University Hospital (QEUH), and across the health service, in the care that they have provided to patients and families throughout the COVID-19 pandemic; offers its condolences to all families who have lost a loved one while in the care of the health service; notes that NHS Greater Glasgow and Clyde was elevated to Stage 4 of the escalation framework in November 2019; further notes that the board has completed 91% of the 108 recommendations that followed the work of the QEUH Independent Review, the Oversight Board Report and the independent Case Note Review; welcomes that Healthcare Improvement Scotland is to review aspergillus infections at QEUH, and calls for any recommendations from this work to be implemented as quickly as practicable; recognises that the independent public inquiry, chaired by Lord Brodie, is underway, and looks forward to its conclusions and any recommendations being fully enacted."

[S6M-02327.1](#) Douglas Ross: Protecting Patient Safety at the Queen Elizabeth University Hospital—As an amendment to motion S6M-02327 in the name of Anas Sarwar (Protecting Patient Safety at the Queen Elizabeth University Hospital), insert at end " ; recognises that ultimate responsibility lies with the Scottish Government, and therefore calls for a further independent inquiry into the ministerial response to avoidable deaths at the Queen Elizabeth University Hospital."

followed by Scottish Labour Party Debate: Action on Active Ventilation in Schools

[S6M-02326](#) Michael Marra: Action on Active Ventilation in Schools—That the Parliament notes with concern that case rates for COVID-19 continue to be highest among under-15s with seven-day case rates over 400 per 100,000; considers that reducing transmission of COVID-19 in schools will be crucial for reducing levels of the virus across the country and that the lack of proper ventilation is a worry for young people, teachers and parents; recognises that Scottish Government ministers have repeatedly failed to publish information on the rate of failure and criteria for their ventilation inspection scheme, which inspected 40,100 of 52,000 learning spaces between August and October 2021; agrees that, especially during the winter months, there is a need for more active ventilation in schools, and calls on the Scottish Government to ensure that local authorities have funding available to install at least two HEPA filters in each classroom in Scotland.

The Presiding Officer has selected the following amendment

[S6M-02326.1](#) Shirley-Anne Somerville: Action on Active Ventilation in Schools—As an amendment to motion S6M-02326 in the name of Michael Marra (Action on Active Ventilation in

Schools), leave out from “considers” to end and insert “notes that the Scottish Government’s Guidance on COVID-19: Reducing the Risks in Schools is informed by expert advice, including from the Advisory Sub-Group on Education and Children’s Issues and the Health and Safety Executive; recognises that, while only one of a range of mitigations that are in place, this guidance requires local authorities to work with schools to ensure good ventilation and access to CO2 monitoring, and sets out clear criteria and strategies to help achieve this; notes that the Scottish Government has already provided £90 million to support schools with Covid logistics, including ventilation, with an additional £10 million provided to undertake CO2 monitoring in the learning estate; commends local authorities for the work they have done to date to ensure that 100% of all learning, teaching and play spaces across Scotland have received an initial assessment using CO2 monitors, with any required remedial action being undertaken in line with guidance; thanks Scotland’s school unions for the constructive role they have played in raising the legitimate concerns of their members in relation to the importance of ventilation; welcomes the ongoing feedback and engagement with local authorities, unions and other relevant stakeholders on current ventilation guidance and its implementation, and further welcomes the Scottish Government’s ongoing commitment to monitor and update school ventilation guidance, should that be required, in line with the latest scientific expert advice.”

followed by Scottish Government Debate: Reappointment of Scottish Land Commissioners

[S6M-02307](#) Màiri McAllan: Reappointment of Scottish Land Commissioners—That the Parliament notes the Net Zero, Energy and Transport Committee’s consideration of the reappointment of four commissioners to the Scottish Land Commission at its meeting on 16 November 2021; welcomes the Committee’s recommendation that the Parliament approves the reappointment to the Scottish Land Commission of Andrew Thin, as Commissioner for an additional two year term and selected as Chair for an additional two year term, and of Dr Bob McIntosh, Tenant Farming Commissioner, Dr Sally Reynolds, Commissioner, and Lorne MacLeod, Commissioner, for additional three year terms, and approves the reappointments as required by section 10 of the Land Reform (Scotland) Act 2016.

S6M-02326 Michael Marra: Action on Active Ventilation in Schools—That the Parliament notes with concern that case rates for COVID-19 continue to be highest among under-15s with seven-day case rates over 400 per 100,000; considers that reducing transmission of COVID-19 in schools will be crucial for reducing levels of the virus across the country and that the lack of proper ventilation is a worry for young people, teachers and parents; recognises that Scottish Government ministers have repeatedly failed to publish information on the rate of failure and criteria for their ventilation inspection scheme, which inspected 40,100 of 52,000 learning spaces between August and October 2021; agrees that, especially during the winter months, there is a need for more active ventilation in schools, and calls on the Scottish Government to ensure that local authorities have funding available to install at least two HEPA filters in each classroom in Scotland.

Supported by: Martin Whitfield, Paul Sweeney*

***S6M-02326.1 Shirley-Anne Somerville: Action on Active Ventilation in Schools**—As an amendment to motion S6M-02326 in the name of Michael Marra (Action on Active Ventilation in Schools), leave out from “considers” to end and insert “notes that the Scottish Government’s Guidance on COVID-19: Reducing the Risks in Schools is informed by expert advice, including from the Advisory Sub-Group on Education and Children’s Issues and the Health and Safety Executive; recognises that, while only one of a range of mitigations that are in place, this guidance requires local authorities to work with schools to ensure good ventilation and access to CO2 monitoring, and sets out clear criteria and strategies to help achieve this; notes that the Scottish Government has already provided £90 million to support schools with Covid logistics, including ventilation, with an additional £10 million provided to undertake CO2 monitoring in the learning estate; commends local authorities for the work they have done to date to ensure that 100% of all learning, teaching and play spaces across Scotland have received an initial assessment using CO2 monitors, with any required remedial action being undertaken in line with guidance; thanks Scotland’s school unions for the constructive role they have played in raising the legitimate concerns of their members in relation to the importance of ventilation; welcomes the ongoing feedback and engagement with local authorities, unions and other relevant stakeholders on current ventilation guidance and its implementation, and further welcomes the Scottish Government’s ongoing commitment to monitor and update school ventilation guidance, should that be required, in line with the latest scientific expert advice.”

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at Proposals for Members' Bills/Session 6 Proposals:

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
