Members' Business motions that have not achieved cross party support

***[S6M-03957](#) Katy Clark: Emergency Rent Freeze**—That the Parliament notes the publication of the Scottish Government's Private Sector Rent Statistics 2010 to 2021, which reportedly show that the average monthly rent for a two bedroom property rose in real terms by 6.8% in Ayrshire and 7.1% in West Dunbartonshire over the last year; further notes that the average monthly rent for a two bedroom property reportedly rose by 25.1% across Scotland between 2010 and 2021; notes the publication of analysis by the estate and letting agent, Hamptons, which reportedly found that the average private renter's household in Scotland spent 32% of post-tax income on rent in 2021; considers that these price rises are unsustainable for renters in Scotland, in light of the reported cost of living crisis and the UK Consumer Price Index (CPI) rate reportedly being 8.5%, which it understands is the highest recorded rate since this historical modelled data series began in 1989; notes with concern reports that the number of people living in poverty who live in the private rented sector has tripled over the last decade, according to the Joseph Rowntree Foundation; notes the calls for a Scottish Living Rent Commission to be set up to regulate the sector; believes that spiralling rent costs, bill costs and price rises mean that renters cannot afford to wait until 2025 for a system of rent controls to be implemented, as set out in the consultation, A New Deal for Tenants - draft strategy, and notes the view that an emergency rent freeze for all public and private sector renters should be implemented for a determined period.

***[S6M-03918](#) Katy Clark: Municipal Bus Ownership**—That the Parliament notes the publication of the responses to the consultation, Implementing Part 3 of the Transport (Scotland) Act 2019: Bus Services; further notes that a key provision in the Act is to give local transport authorities (LTAs) the power to establish and run local bus services; understands that a key theme across the responses was the need for the Scottish Ministers and Transport Scotland to provide financial and practical support to local authorities in order to implement this provision successfully; further understands from the publication that a significant number of respondents expressed a negative view towards Bus Service Improvement Partnerships (BSIPs), and took the view that they would maintain the perceived failed policy of bus deregulation and would not address issues such as high fares and lack of services to perceived underserved areas; understands that forming a BSIP with private operators is a condition to receiving support via the Scottish Government's Bus Partnership Fund; notes the view expressed by trade unions and campaigners that this funding

stream coerces local authorities into the partnership model; further notes the view that equivalent levels of funding should be made available to local authorities that wish to pursue municipally owned or franchising models; notes the 2019 Transport Focus survey, which reportedly found that the municipally-owned company, Lothian Buses, was considered by passengers to be the best value-for-money service in Scotland, and notes the calls on the Scottish Government to provide the necessary funding and support to enable local authorities to replicate this model with a view to reversing the reported falling passenger numbers, cutting fare costs and providing a world-class service.

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
