***[S6M-04329](#) Monica Lennon: Jackdaw Oilfield —**

That the Parliament considers that the approval of Shell's proposed Jackdaw gas field in the North Sea would cause significant harm to Scotland, and the world; understands that approval of the Jackdaw field reportedly contradicts recommendations in the 2021 International Energy Agency (IEA) report on achieving net zero targets that there is no need for new oil and gas fields; notes reports that the gas field contains over 58 million barrels of oil equivalent and, if drilling is approved, burning the gas produced would create more than half the annual emissions of the whole of Scotland; understands that the field would not start production until at least 2025 and so would have no impact on the current cost of living crisis; considers that climate change is an existential crisis that needs urgent and radical action; believes that opening the Jackdaw gas field would be at odds with Scotland's aims of being net zero by 2045 and the global goals of the Paris Agreement; supports calls for the UK Government to reject the plans for the Jackdaw gas field and all new oil and gas field licensing and developments, and urges both the UK and Scottish governments to act faster to reduce demand for fossil fuels, and to prioritise the transition to a low-carbon economy, with a clear industrial plan and consultation with trade unions and workers, particularly from the oil and gas sector, to ensure a just transition for workers and communities across Scotland.

***[S6M-04313](#) Alex Rowley: Bus Provision Disparity Across Scotland—**

That the Parliament is deeply concerned by reports of disparity in bus provision across the country; considers that high fares are compounding the pressures of the cost of living crisis; believes that unreliable services create a barrier to the public being able to make the change to bus travel from driving; considers that the nature of certain bus services being run privately leads to decisions on routes offered being made on the basis of profitability rather than public need; believes that Scotland's bus system is currently unfair, due to what it considers is disparity in the service offered between publicly-owned and privately-owned providers; considers that greater transition to public transport usage is essential to meeting the climate targets it believes are required to avoid catastrophic climate change; believes that all that can be done, must be done to this end, and further believes that bus services should be run as a public service, for the public good, at an affordable price.

***[S6M-04229](#) Douglas Ross: Forres-based AES Solar Wins Queen's Award—**

[*S6M-04182](#) Siobhian Brown: Dayn Montgomery, Prestwick—That the Parliament applauds eight-year-old Dayn Montgomery, from Prestwick, who donated over 302 Easter treats, toiletries, and toys to sick children in hospital; understands that Dayn received help from the scout group that he attends, as well as other scout groups in the area and Morrison's supermarket; commends Dayn for donating the treats and supplies to children at the Royal Hospital for Children in Glasgow, Crosshouse Hospital in Kilmarnock, the Ronald McDonald House, and the Yorkhill Charity; understands that Dayn regularly attends the Royal Hospital for Children because he has complex heart defects; notes that Dayn previously gifted 215 selection boxes for children at Crosshouse Hospital in Kilmarnock at Christmas, and congratulates Dayn for his charitable work and dedication to helping children like himself.

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at [Proposals for Members' Bills/Session 6 Proposals](#):

(lodged 28 April 2022)

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
