followed by Scottish Conservative and Unionist Party Debate: Economic Priorities

[S6M-04815](#) Liz Smith: Economic Priorities—That the Parliament is deeply concerned by many of the trends published within the recent analysis of the Scottish economy undertaken by the Scottish Fiscal Commission; is concerned, in particular, by the revised downward growth estimates and decline in real earnings, and that the Scottish Government has imposed higher tax rates on Scotland without increasing revenues, compared with the block grant adjustment, due to the ongoing issues relating to weaker productivity and inflexibilities within the Scottish labour market; is further concerned by the real-terms cuts of more than £1 billion announced by the Scottish Government, which will affect local government, the police and higher education, among key services; calls on the Scottish Government to commit to ensuring that no one in Scotland pays more income tax compared with people in the rest of the UK, when finances allow, ensuring that policies to deliver long-term growth, including collaborative projects with the UK Government such as city deals, are a priority within Scottish Government spending plans; calls for a finance bill mechanism to be introduced to evaluate the effectiveness of public spending, and further calls for plans for a second independence referendum to be taken off the table.

The Presiding Officer has selected the following amendments

[S6M-04815.3](#) Kate Forbes: Economic Priorities—As an amendment to motion S6M-04815 in the name of Liz Smith (Economic Priorities), leave out from "is deeply" to end and insert "endorses the priorities set out in the Scottish Government's spending review of tackling child poverty, addressing the climate crisis, building a stronger economy and improving public services, while supporting those people struggling with the increased cost of living; notes that the overall Scottish Budget has fallen by 5.2% in real terms between 2021-22 and 2022-23 and that the Scottish Fiscal Commission has confirmed a further 1% real-terms reduction until 2025-26; agrees that current financial fiscal arrangements between the UK Government and the Scottish Government are deeply flawed; highlights the persistent dismal failures of leadership in the UK Government, with the UK currently having the highest inflation rate of any G7 country, compounded by Brexit increasing food prices; notes recent research from the Glasgow Centre for Population Health highlighting the brutal reality of a decade of austerity under the UK Government, and believes that, with full control over the economic and financial powers, the Scottish Government could take further action to build the economy that Scotland deserves."

[S6M-04815.2](#) Paul Sweeney: Economic Priorities—As an amendment to motion S6M-04815 in the name of Liz Smith (Economic Priorities), leave out from "is deeply" to end and insert "notes the recent findings of the Scottish Fiscal Commission and is deeply concerned by many of the trends identified, including that productivity growth in Scotland has stalled since 2015 and earnings growth is lagging behind the UK's; is further concerned, in particular, by the revised downward growth estimates and decline in real earnings, and that the Scottish Government has imposed higher tax rates on Scotland without increasing revenues, compared with the block grant adjustment, due to the ongoing issues relating to weaker productivity and inflexibilities within the Scottish labour market, with the result that net Scottish income tax receipts in 2022-23 are forecast to be £428 million less than if income tax had not been devolved; considers that this is a

consequence of the Scottish Government's failure to use the taxation, borrowing and investment powers of devolution to support and grow the Scottish economy; notes that this has directly resulted in less tax revenue available to invest in Scottish public services, and is further concerned by the real-terms cuts of more than £1 billion announced by the Scottish Government, which will affect local government, the police and higher education, among key services; calls on the Scottish Government to ensure that policies to deliver long-term growth, including collaborative projects with the UK Government such as city deals, are a priority within Scottish Government spending plans; further calls for a finance bill mechanism to be introduced to evaluate the effectiveness of public spending; calls for plans for a second independence referendum to be taken off the table, and believes that the failure to grow Scottish wages will also mean that hard-working people are more exposed to the pressures of the cost of living crisis."

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at Proposals for Members' Bills/Session 6 Proposals:

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
