followed by Ministerial Statement: Retained EU Law

followed by Scottish Labour Party Debate: Cost of Living Support

[S6M-05106](#) **Mark Griffin: Cost of Living Support**—That the Parliament notes that, under the UK Government’s Energy Bills Support Scheme, second home owners across Scotland will receive a double payment of the £400 credit for their energy bills; considers that this funding would be better used to support low-income households struggling with the cost of living crisis, and calls on the Scottish Government to allow local authorities to recover this money through a one-off increase to the council tax levied on second homes in order to support local cost of living responses.

The Presiding Officer has selected the following amendments

[S6M-05106.2](#) **Tom Arthur: Cost of Living Support**—As an amendment to motion S6M-05106 in the name of Mark Griffin (Cost of Living Support), leave out from “calls on” to end and insert “agrees that the Scottish Government, in consultation with COSLA, should examine all options to recover this money through a council tax levy on second homes and long-term empty homes in order to support local cost-of-living responses on a fair and equitable basis.”

[S6M-05106.1](#) **Miles Briggs: Cost of Living Support**—As an amendment to motion S6M-05106 in the name of Mark Griffin (Cost of Living Support), leave out from “second home” to end and insert “every household in Scotland will receive £400 off their energy bills, with additional funding being provided to those on benefits, people with disabilities and pensioners; further notes that raising the National Insurance threshold and cutting the Universal Credit taper rate will allow people to keep more of the money they make; agrees that cutting fuel duty will help tackle this crisis by lowering fuel costs; notes that the £243 billion that the UK Government spends on welfare will support some of the most vulnerable families in Scotland; believes that the huge £251 million cut to Scottish local authorities has resulted in higher council tax rates across the country, and supports increasing the single person discount on council tax from 25% to 35%.”

followed by Scottish Labour Party Debate: Delivering the Immediate Removal of Non-residential Social Care

[S6M-05111](#) **Jackie Baillie: Delivering the Immediate Removal of Non-residential Social Care Charges**—That the Parliament believes that the Scottish Government should end all non-residential social care charges in the current financial year given the growing pressure that the

cost of living crisis is putting on the most vulnerable in society, and the level of reserves sitting with health and social care partnerships.

The Presiding Officer has selected the following amendments

[S6M-05111.2](#) Kevin Stewart: Delivering the Immediate Removal of Non-residential Social Care Charges—As an amendment to motion S6M-05111 in the name of Jackie Baillie (Delivering the Immediate Removal of Non-residential Social Care Charges), leave out from "financial year" to end and insert "parliamentary session; welcomes the recent introduction of the National Care Service (Scotland) Bill, in line with the Bute House Agreement, and supports the creation of this new service, which will end the postcode lottery in adult social care in Scotland; regrets that the UK Government's welfare cuts, and retention of 85% of spending on social security benefits, including low-income benefits, and employment powers, including the minimum wage remaining with the UK Government, is letting down the most vulnerable in society by failing to properly address the cost of living crisis and its causes; notes that the Scottish Government has increased eight Scottish social security benefits at double the rate that the UK Government uprated benefits within its control; understands that the overall budget available in Scotland is largely determined by the spending decisions of the UK Government, and considers that the Scottish Government is already investing in mitigating the impact of UK Government control, tackling the cost of living, and tackling poverty."

[S6M-05111.1](#) Sandesh Gulhane: Delivering the Immediate Removal of Non-residential Social Care Charges—As an amendment to motion S6M-05111 in the name of Jackie Baillie (Delivering the Immediate Removal of Non-residential Social Care Charges), leave out from "believes" to end and insert "calls on the Scottish Government to properly fund local authorities so that they have more freedom when it comes to non-residential social care charges; regrets that the Scottish Government's proposals for a National Care Service could cost up to £1.3 billion to deliver, and that much of this will be spent on establishing structures and administration when what the care sector needs right now is stability to get back on its feet; understands that the Scottish Government's proposals will leech funding away from the frontline; regrets that the National Care Service represents a direct attack on the competence of local authorities, and calls on the Scottish Government to scrap these plans and introduce a local care guarantee that would ensure that care is delivered as close as possible to those who need it."

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at [Proposals for Members' Bills/Session 6 Proposals](#):

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
