**\*[S6M-06229](#) Paul McLennan: The Economic Impact of Scotland's Renewable Energy Sector – 2022 Update**—That the Parliament welcomes the publication of *The Economic Impact of Scotland's Renewable Energy Sector – 2022 Update*, by Scottish Renewables and the Fraser of Allander Institute, which it understands provides the latest economic output and job figures for Scotland's renewables energy industry; understands that the report demonstrates that Scotland's renewable energy industry and its supply chain supported more than 27,000 full time equivalent jobs, and that onshore wind supported the most employment across Scotland's economy from the renewable energy sector, with 10,120 full time equivalent roles, followed by offshore wind with 6,735 full-time equivalent roles, and hydropower with 4,395 full-time equivalent roles; highlights the report's findings that Scotland's renewable energy industry generated £5.6 billion of output in 2020; considers that the report found onshore wind had the largest estimated economic output, generating nearly £2.5 billion, with offshore wind and hydropower both supporting more than £1.1 billion output, and welcomes what it sees as the strength of Scotland's renewable energy industry and the energy security, economic, environmental and social benefits that it brings to communities across Scotland, including in East Lothian.

## Members' Bills Proposals

### Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at Proposals for Members' Bills/Session 6 Proposals:

## Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
