***[S6M-06230](#) Alexander Burnett: Improving Outcomes for People with Neurological Conditions**—That the Parliament welcomes the publication of the *Together for the One in Six* report from the Neurological Alliance of Scotland; understands that the report draws its conclusions and recommendations from a survey of over 800 people living in Scotland with a neurological condition; notes that the report found there were delays in the diagnosis of and treatment for neurological conditions; considers that these findings are the result of pre-existing structural problems, exacerbated by the impact of the COVID-19 pandemic; further considers that the Scottish Government's plan to implement the Strategic Framework for Action on Neurological Care and Support has been delayed, and is unlikely to have achieved its objectives by its end point in 2025; highlights the view that services for children and young people with neurological conditions should be included in future strategic work; understands that the report concluded that there was a lack of data around the wider prevalence of neurological conditions, and notes the view that the Scottish Government must now address this and begin work to develop a comprehensive plan that ensures Scotland, including Aberdeenshire West, has the workforce and resources to support people with neurological conditions now and deliver better outcomes for them in the future.

Activism to end violence against women and girls", which calls for global actions to increase awareness, galvanise advocacy efforts, and share knowledge and innovations; believes that, while pervasive, gender-based violence is not inevitable, and it can and must be prevented; notes the view that stopping this violence starts with adopting comprehensive and inclusive approaches that tackle the root causes, transform harmful social norms, and empower women and girls, and further notes repeated calls for individual men, including those in the East Lothian constituency, to look inward at their own behaviour and to make the necessary changes that it considers can lead to the societal change required to bring an end to violence against women and girls in Scotland and beyond.

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
