[S6M-04821 Miles Briggs: Cancer Card](#)—That the Parliament acknowledges what it sees as the tremendous work by Jen Hardy in establishing Cancer Card in Scotland, which is an initiative that provides people with access to vital cancer support services and information regarding their diagnosis in one place; understands that, after her own incurable breast cancer diagnosis in 2017, Jen was struck by the realisation that there was no single place for her to obtain useful information related to her illness, which motivated her to establish Cancer Card; further understands that this community can help people diagnosed with cancer, including people in the Lothian region, to find the support that they require, minimising stress during an already highly stressful time; recognises that Cancer Card attained charity status in 2021; considers that it can play an integral role in securing relief and comfort to cancer patients, and welcomes the appointment of Ian Pirrie as Cancer Card's first CEO.

followed by Scottish Government Debate: Progress on the Automation and Take-up of Scottish Social Security Benefits

[S6M-06572 Ben Macpherson: Progress on the Automation and Take-up of Scottish Social Security Benefits](#)—That the Parliament welcomes the positive impact that existing automation of Scottish social security payments is having, including ensuring that most eligible people receive the Child Winter Heating Assistance and Carer's Allowance Supplement without needing to apply; further welcomes the proposal to automate the Best Start Grant Early Learning Payment and Best

Start Grant School Age Payment for eligible families in receipt of Scottish Child Payment by the end of November 2022; notes the Scottish Government's intention to continue exploring opportunities for further automation; believes that these changes will mean that more people get the benefits that they are entitled to, which is especially important at a time of increasing economic uncertainty; recognises the progress made in promoting Scottish benefit take-up since the publication of the second benefit take-up strategy in 2021, including the launch of an independent advocacy service and funding welfare rights advisors in up to 180 GP practices in Scotland's most deprived areas, as well as remote and rural areas; acknowledges that there is still work to do regarding both automation and take-up, and agrees, therefore, that all governments should ensure that people are aware of, and enabled to access, the financial support that they are eligible for and entitled to.

The Presiding Officer has selected the following amendments

S6M-06572.1 Jeremy Balfour: Progress on the Automation and Take-up of Scottish Social Security Benefits—As an amendment to motion S6M-06572 in the name of Ben Macpherson (Progress on the Automation and Take-up of Scottish Social Security Benefits), insert at end “; is encouraged by the joint work of the UK and Scottish governments to help all people in Scotland; welcomes the work done by the Department for Work and Pensions (DWP) to ensure that people are getting their benefits; welcomes the extra funds provided by the UK Government in Barnett consequentials to support struggling families, and expresses disappointment in the delay of the Scottish Welfare Fund review, and in the lack of collection of data by Social Security Scotland.”

S6M-06572.2 Pam Duncan-Glancy: Progress on the Automation and Take-up of Scottish Social Security Benefits—As an amendment to motion S6M-06572 in the name of Ben Macpherson (Progress on the Automation and Take-up of Scottish Social Security Benefits), leave out from “welcomes the positive” to end and insert “notes the impact that existing automation of Scottish social security payments is having, including ensuring that most eligible people receive the Child Winter Heating Assistance and Carer's Allowance Supplement without needing to apply; believes that the opportunity to automate other aspects of the social security system should have been taken before now; regrets that the Best Start Grant Early Learning Payment and the Best Start Grant School Age Payment for eligible families in receipt of Scottish Child Payment are not yet automated; notes that uptake for Scottish social security payments is not yet maximised and that the Scottish Government has chosen to allow the Department for Work and Pension (DWP) to continue to administrate several devolved benefits; believes that opportunities for further automation must be expedited so that more people get the benefits that they are entitled to, which is especially important at a time of increasing economic uncertainty; understands that direct referral mechanisms between public agencies and other organisations in Scotland have not been developed, and urges the Scottish Government to prioritise this to ensure that the “no wrong door approach” can be delivered fully, and that those who are entitled to social security payments are enabled to access the financial support that they are eligible for.”

Members' Business motions that have not achieved cross party support

***S6M-06478 Jamie Halcro Johnston: Road Improvements and the Dualling of the A9**—That the Parliament notes with concern the number of incidents that have taken place on the A9 over recent months and led to road closures, and injuries and fatalities; recognises the Scottish Government’s commitments to dual the A9 from Perth to Inverness by 2025, which stand alongside other commitments to road improvements, such as dualling of the A96 by 2030, to support road safety, and provide the economic advantages of connectivity; notes the view that commitments and proposals on investment in the road network have not progressed at pace in recent years and that questions have been raised about the commitment of the Scottish Government to these proposals following the agreement between the Scottish Government and the Scottish Green Party Parliamentary Group; acknowledges the belief that work on the A9, in particular, is clearly not on schedule, and notes the calls for the Scottish Government to reaffirm these commitments on the basis of an updated and achievable timetable that should be presented to the Parliament as soon as possible, in order to reassure communities in the Highlands and Islands and across other regions that committed investment will take place.

Other new and altered motions and amendments

***S6M-06566 Christine Grahame: Remember Remember** —That the Parliament recognises that, whilst 5 November can be an exciting time for many, considers that it is equally a challenging time for many such as those with combat post-traumatic stress disorder (PTSD), refugees of war, those with sensory sensitivities and pets and livestock; encourages the public to be considerate in their use of fireworks and where possible to attend organised public displays rather than private displays; notes that those who may find this night stressful are encouraged to make a plan ahead of time and reach out to loved ones for support; understands that those who have animals, which may be distressed, can access advice from organisations like the PDSA, British Veterinary Association and the Scottish SPCA and should ensure that they have a safe area to retreat to or hide in; recognises also the hard work of the emergency services in keeping everyone safe at this time of year, and hopes that 5 November can pass without any adverse incidents.

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at [Proposals for Members' Bills/Session 6 Proposals](#):

(lodged 1 November 2022)

The proposal was accompanied by a summary of consultation responses, which is accessible online via the website page referred to above. The summary, and individual responses, may also be viewed in the Scottish Parliament Information Centre (SPICe).

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
