Members' Business motions that have not achieved cross party support

***[S6M-06425](#) Katy Clark: Investment in Further Education**—That the Parliament notes with concern the reported lack of investment in further education, including in the West of Scotland; understands that Colleges Scotland has estimated a real terms reduction to the Scottish Government's core budget of £23.9 million in 2022-23 due to inflation, even before rising costs related to increased pay and rising energy costs for Scotland's colleges are taken into account; further understands that, accounting for COVID-19 consequentials in early 2021 to support deferred students, foundation apprenticeships, mental health and wellbeing initiatives, and the provision of digital equipment for students, which, it believes, has not been continued, the total reduction in the college budget for 2022-23 is estimated at £51.9 million; believes that cuts to funding initiatives will exacerbate inequalities and disproportionately affect poorer students; notes with concern reports that the average expenditure per place for each education level in real terms, in 2019-20, was just over £4,000 per college student, compared to over £8,000 per secondary school pupil, over £7,000 per pre-school pupil, over £6,000 per primary school pupil and just under £6,000 per university student; notes the view that a lack of investment has had a knock on effect to industrial relations, given there have been disputes around pay, conditions, insecure contracts, fire and rehire policies, and discipline and grievance procedures, since 2014; believes that real terms funding reductions mean that college budgets are not keeping pace with staffing costs, and that real terms staff pay is not keeping pace with inflation amidst a cost of living crisis; acknowledges the exceptional role that it considers colleges play in supporting communities, particularly in working class areas; notes the view that further education will need sustainable investment to ensure that society and the wider economy adapts to the challenges posed by the climate emergency and other issues, and notes the calls for the Scottish Government to come forward with a financial rescue package to protect jobs, support students and ensure the long-term sustainability of the sector.

nearly 20% of respondents across all age groups having the know-how but no desire to use the internet for transactions, and nearly 21% of respondents preferring to conduct transactions face to face, and 12.4% by landline or through the post; understands that the poorer a household, the more digitally restricted that household is; considers that this report can provide valuable insights into how to design services in Dumfries and Galloway and other rural areas, and into the need to ensure that services continue to offer a non-digital element for those who do not wish to access them digitally, and hopes that its findings may prompt further research into the matters that it covered.

***[S6M-06542](#) Monica Lennon: Pardoning People Convicted of Drug Possession**—That the Parliament commends the reported announcement from the President of the United States of America to pardon those convicted of cannabis possession; believes that campaigners across Scotland and the rest of the UK will monitor this with interest; understands that the so-called war on drugs and the criminalisation of drug users has had a disproportionately negative impact on working class and ethnic minority people across Britain, including in Scotland; further understands that, since the start of the 2011 financial year, 11,312 people have been convicted of cannabis usage in Scotland; understands that the Scottish crime and justice survey shows that class B drug usage is higher in deprived communities; considers that the criminalisation of cannabis possession therefore has a greater impact in these communities; believes that, if implemented, the policy announced by the President of the United States of America will positively impact the lives of people convicted of cannabis possession, and considers that the Scottish Government should fully consider what it sees as the benefits of pardoning people convicted of possessing drugs for their own use and explore this policy further.

***[S6M-06526](#) Kenneth Gibson: 700th Anniversary of Scotland's Victory at the Battle of Old Byland**—That the Parliament commemorates the 700th anniversary of the Battle of Old Byland, which was fought near Sutton Bank hill in North Yorkshire in the early morning of 14 October 1322; understands that the battle was an important event in the Scottish Wars of Independence, which pitted the forces of King Robert I “the Bruce” of Scotland against King Edward II of England, after the latter had invaded Scotland in August 1322; further understands that Edward II had been unable to bring the Scottish king to battle during the occupation of Edinburgh, and that he had ordered the slaughter of all remaining Edinburgh inhabitants; notes that, harried by the Scots, the English subsequently retreated into England towards York; acknowledges that King Robert seized the opportunity to counter-attack, and, after crossing the border near Carlisle, on the morning of the 14 October, the Scots army arrived at the foot of Sutton Bank for the battle; is aware that English resistance was finally broken when King Robert sent a flanking force that mainly consisted of Highlanders to scale the more lightly defended cliffs to the south; considers that, while many English soldiers were subsequently slain or taken prisoner, Edward II made a hastened and undignified escape by fleeing in the darkness to London via York, leaving all his belongings behind; believes that the treasures looted by Robert on the way back to Scotland helped start rebuilding his realm, and contends that the Battle of Old Byland was considered the most important military victory for the Scots since the battle of Bannockburn eight years prior.

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at [Proposals for Members' Bills/Session 6 Proposals](#):

(lodged 1 November 2022)

The proposal was accompanied by a summary of consultation responses, which is accessible online via the website page referred to above. The summary, and individual responses, may also be viewed in the Scottish Parliament Information Centre (SPICe).

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
