Debate on the subject of—

[S6M-05607](#) Stuart McMillan: Greenock and Inverclyde Faced with Higher Forecourt Prices that Rest of Scotland—That the Parliament rejects what it sees as the unfair fuel-pricing policy reportedly facing the people of Greenock and Inverclyde; understands that reports from BBC Scotland and the *Greenock Telegraph* suggest that forecourt prices in the area are significantly higher than in other parts of Scotland, including in more rural constituencies; believes that fuel retailers operating in Inverclyde have failed to acknowledge the impact of what it sees as a localised approach to pricing on people and businesses in the area, which, based on the Scottish Index of Multiple Deprivation (SIMD), ranks highest in Scotland for levels of deprivation; welcomes the announcement that the Competition and Markets Authority (CMA) will conduct a market study into the supply of road fuel in the UK; notes the view that changes are needed to prevent fuel retailers from charging significantly higher prices in one area compared to nearby locations; believes that reducing reliance on petrol and diesel vehicles is crucial, in light of the climate emergency; considers, however, that some people rely on their car for work or health reasons, and that purchasing a hybrid or electric vehicle, or using public transport, is not always an option; highlights what it sees as the vast profits being made by big businesses, including oil and gas companies; believes that this is in sharp contradiction to the cost of living crisis facing society that is plunging more households into poverty; notes the view that the UK Government must extend measures to help households, including through a cut in VAT and reduction in fuel duty; further notes the calls on the UK Government to act immediately, before autumn and winter 2022; notes the view that, if immediate action is not taken, the oil and gas sector in Scotland will carry a disproportionate burden of funding a UK-wide response to the cost of living crisis; notes calls on fuel retailers to reduce forecourt prices in Greenock and Inverclyde so that they are in line with the rest of Scotland, and looks forward to the CMA's report into the supply of road fuel across the UK being published later in 2022.

importance of protecting farmland to improve food security and food production; recognises the need for greater funding to develop the skills of existing and new forestry workers; raises concern that the Scottish Government only created 9,414 hectares in the last year, below its 12,000 hectares target; notes that the Scottish Government's annual woodland creation target will be increased to 18,000 hectares by 2025, and considers it critical that this and other targets to strengthen forestry's contribution to achieving net zero and halting biodiversity loss are met on time and in full."

Members' Business motions that have not achieved cross party support

***[S6M-06635](#) Katy Clark: Apprenticeships Budget Freeze**—That the Parliament notes with concern reports that the budget for training providers delivering apprenticeship programmes has been frozen; considers that this freeze constitutes a real-terms cut, given the inflation rate has recently risen to as high as 10.1%; notes the Scottish Training Federation's reported comments that this budget freeze means many training providers will have to make redundancies or close their businesses, without intervention by the Scottish Government; believes that these closures would result in many young people not completing their apprenticeships on schedule, including in the West Scotland region; understands that there is high demand for apprenticeship places; notes the view that creating new work opportunities for young people should be central to Scotland's economic recovery, and further notes the calls on the Scottish Government to come forward with funding to ensure that a further 2,000 apprenticeships are funded in the next six months to meet what it understands is significant employer demand.

Supported by: Pam Duncan-Glancy*, Graham Simpson*, Foysoil Choudhury*, Jeremy Balfour*, Edward Mountain*

***[S6M-06631](#) Jackie Dunbar: #IWill Week 2022**—That the Parliament recognises #IWill Week 2022, which takes place from 21 to 25 November; understands that the #IWill movement is part of a UK-wide initiative, which aims to bring together the wealth of youth volunteering, fundraising, campaigning and mentoring that young people are doing to benefit others, the environment and the causes that they believe in; further understands that Youthlink, the charity behind this movement, looks to put a spotlight on the issues that it believes are affecting young people, notably with its annual conference on 8 November 2022 being focused on youth work and poverty, and wishes #IWillScotland all the best for its upcoming week, bringing awareness to the young people actively making a change.

***[S6M-06569](#) Siobhian Brown: Empire, Slavery and Scotland's Museums**—That the Parliament recognises the work carried out by the Empire, Slavery and Scotland's Museums Steering Group, which investigated how Scotland's involvement in empire, colonialism, and historic slavery can be addressed using museum collections and spaces; notes the recommendation in the group's report, which states that "Scotland should create a dedicated space to address our role in empire, colonialism, and historic slavery"; believes that there are many spaces throughout Scotland, such as Rozelle House and Belleisle House in Ayr, that have historic links to slavery; understands that locations such as Belleisle and Rozelle were funded from the proceeds of historical slavery, and considers that Scotland's young people would benefit from learning about this part of Scottish history.

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at [Proposals for Members' Bills/Session 6 Proposals](#):

(lodged 1 November 2022)

The proposal was accompanied by a summary of consultation responses, which is accessible online via the website page referred to above. The summary, and individual responses, may also be viewed in the Scottish Parliament Information Centre (SPICe).

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
