Debate on the subject of—

S6M-05911 Emma Roddick: Mental Health Stigma in the Workplace—That the Parliament is concerned by what it sees as continued stigmatisation of mental health issues and those who experience them; considers that, while wider understanding of depression and anxiety is progressing, organisations such as the Royal College of Psychiatrists have noted a pervasive stigma relating to personality, dissociative, and psychosis-related disorders; understands that this stigma is particularly concentrated in the world of work, meaning that people with psychiatric conditions are less likely to be employed or remain so; notes efforts such as SeeMe Scotland's See Me in Work scheme, which aim to support employers to tackle mental health discrimination; understands that a survey by SeeMe was explored in a recent report, *Mental Health – Exploring the Current Landscape*, published by Centred, a mental health charity based in the Highlands of Scotland, which showed around half of people believe someone would not disclose a mental illness at work for fear of adverse effects on their employment; considers that this report contains valuable research around stigma, rural mental health, and the overall situation in Scotland; further notes the belief that this demonstrates that more work needs to be done by employers, public health agencies and government to tackle mental health stigma, and notes the calls for these issues to be addressed in the new Scottish Government Mental Health Strategy.

***[S6M-06646](#) Liam Kerr: The Helmet Inspection Company** —That the Parliament recognises what it sees as the impressive innovation being displayed by Martin Slowey and his business, The Helmet Inspection Company; notes that The Helmet Inspection Company is an Aberdeen company offering a service that scans all forms of protective headgear for any hidden signs of damage or degradation; understands that the scan reveals damage and defects beneath the outer surface of the shell, which is invisible to the naked eye, and the results show if a helmet is fit for purpose; applauds this impressive innovation on display, which, it believes, is improving safety and increasing the longevity of helmets; understands that the business has seen a high level of success and is now looking to expand, and wishes Martin Slowey and all at The Helmet Inspection Company all the best for the future.

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at Proposals for Members' Bills/Session 6 Proposals:

(lodged 1 November 2022)

The proposal was accompanied by a summary of consultation responses, which is accessible online via the website page referred to above. The summary, and individual responses, may also be viewed in the Scottish Parliament Information Centre (SPICe).

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
