Members' Business motions that have not achieved cross party support

***[S6M-07164](#) Katy Clark: STUC Report on Taxation Options**—That the Parliament welcomes the publication of the report, *Options for increasing taxes in Scotland to fund investment in public service*, by Landman Economics, commissioned for the Scottish Trades Union Congress (STUC); notes the belief that a number of the report's reforms could be made to the tax system as early as April 2023, and that these could raise around £1.3 billion of additional revenue per year; understands that the report found that reducing the higher rate threshold for income tax from £43,662 to £40,000, reducing the top rate threshold for income tax from £150,000 to £125,140, introducing a new band of 44%, freezing the intermediate rate of £25,689 in nominal terms, and increasing the higher rate by 2% would collectively generate around £867 million in revenue per year; notes that the report estimates that an extra £2 billion per year could be raised in the long term through the introduction of wealth taxes devolved at council level, the replacement of council tax with a proportional property tax, a carbon emissions land tax, a new land value tax for commercial land, reforms to the small business bonus scheme and an increase in the Scottish aggregates levy; believes that the distribution of wealth in Scotland today is profoundly uneven, with the two richest families reportedly holding more wealth than the poorest 20% combined; considers that real-terms cuts to public services and local authority budgets are the wrong priority at a time when the Consumer Price Index has been reported to be at 11.1% and Retail Price Index at 14.2%, leaving most workers worse off as their wages fail to keep pace with inflation; notes the view that what it considers as these progressive tax reforms are necessary to avert the need to implement real-term austerity cuts in forthcoming budgets, and notes the calls on the Scottish Government to commit to what it regards as a prudent fiscal approach that ensures the wealthiest in society, including in the West Scotland region, pay a fairer share of taxation, local authority budgets and public services' budgets are protected, and all public sector workers are awarded pay rises which reflect the rate of inflation.

***[S6M-07073](#) Alex Cole-Hamilton: Drugs Testing Facilities**—That the Parliament expresses its sadness at the news of the tragic death of Maya Nager; notes from reports that she passed away aged 19 after falling ill at the Terminal V festival at the Royal Highland Centre, and that she is believed to have ingested a substance in the hours leading up to her death; believes that her loved ones knew her as a compassionate and vivacious person, and passes on its condolences to her family and friends; considers that the Royal Highland Centre endeavours to uphold the highest standards of safety at events that it holds; further considers that venues must be given more support in order to achieve this, and therefore recommends the introduction of drugs testing facilities; notes reports of the success of such schemes already in place in England and Wales, where it understands that almost one in five users disposed of their drugs once aware of the content; advocates a shift towards what it sees as a compassionate public health approach that focusses on harm reduction, and considers drugs checking facilities to be crucial for such an approach, and calls upon the Scottish Government and Police Scotland to swiftly work towards their implementation.

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at [Proposals for Members' Bills/Session 6 Proposals](#):

Final Proposals for Member's Bills

Alex Rowley: Proposed Domestic Building Environmental Standards (Scotland) Bill— Proposal for a Bill to introduce new minimum environmental design standards for all new-build housing to meet a Scottish equivalent to the Passivhaus standard, in order to improve energy efficiency and thermal performance. (lodged 16 November 2022)

The proposal was accompanied by a summary of consultation responses, which is accessible online via the website page referred to above. The summary, and individual responses, may also be viewed in the Scottish Parliament Information Centre (SPICe).

On 15 December 2022, the Minister for Zero Carbon Buildings, Active Travel and Tenants' Rights (Patrick Harvie) made the following statement under Rule 9.14.13:

"I hereby state that the Scottish Government will make subordinate legislation within two years, to introduce new minimum environmental standards for all new-build housing to meet a Scottish equivalent of the Passivhaus standard, in order to improve energy efficiency and thermal performance.

Accordingly, the subordinate legislation will give effect to Alex Rowley's final proposal for a Domestic Building Environmental Standards (Scotland) Bill."

As a result, Alex Rowley has no right to introduce a Bill to give effect to the proposal, and the proposal falls.

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
